THERMOCHIMICA ACTA, VOLUME 155 (1989)

SUBJECT INDEX

Acoustic emission detection,
Analysis of a martensitic transformation by optical microscopy, acoustic emission detection, resistance measurements and differential scanning calorimetry 115
Aluminium,
EMF investigation of Al–Si, Al–Fe–Si and Al–Ni–Si liquid alloys 39
Ammonium nitrate,
Properties and thermal decomposition of the double salts of uranyl nitrate–ammonium nitrate 283
Amphotericin B,
Thermal behaviour and stability of amphotericin B 29
Anthracites,
A DTG combustion study on anthracitic and other coal chars 151
Antimony,
A thermodynamic evaluation of the Au–Sb and Au–Ti systems 211
A thermodynamic evaluation of the Ge–In, Ge–Pb, Ge–Sb, Ge–Tl and Ge–Zn systems 227
Aromatic diamines,
Studies of Ti(IV) and Zr(IV) chelates with N_2O_2 Schiff bases of 2-hydroxy-1-naphthaldehyde with aromatic diamines 309
Association,
Associaiton between ice nuclei and fracture interfaces in sucrose: water glasses 103

Binary mixtures,
Excess enthalpies of some binary mixtures: a contribution to the study of the Cl–O specific interaction 317
1,3-Butanediol,
Isothermal and non-isothermal crystallization during warming in aqueous solutions of 1,3-butanediol: comparison of calorimetry and cryomicroscopy 187

Cadmium(II),
Thermal decomposition kinetics of 2-furaldehyde thiosemicarbazone complexes of cadmium(II) and mercury(II) 247
Calorimetric method,
Critical review of the calorimetric method for equilibrium constant determination 353
Calorimetry,
Isothermal and non-isothermal crystallization during warming in aqueous solutions of 1,3-butanediol: comparison of calorimetry and cryomicroscopy 187
Characterization,
Localization and characterization of intracellular liquid–liquid phase separations in deeply frozen *Populus* using electron microscopy, dynamic mechanical analysis and differential scanning calorimetry 163
Chloro-organic pesticides,
Thermoanalytical investigations of some chloro-organic pesticides and related compounds 7
Cl–O specific interaction,
Excess enthalpies of some binary mixtures: a contribution to the study of the Cl–O specific interaction 317
Coal,
A DTG combustion study on anthracitic and other coal chars 151
Comparison,
Isothermal and non-isothermal crystallization during warming in aqueous solutions of 1,3-butanediol: comparison of calorimetry and cryomicroscopy 187
Corn embryos,
Glassy states in dormant corn embryos 109
Correlation,
Correlation of quaternary liquid–liquid equilibrium data by means of a modification of the UNIQUAC model 263
Cryomicroscopy,
Isothermal and non-isothermal crystallization during warming in aqueous solutions of 1,3-butanediol: comparison of calorimetry and cryomicroscopy 187
Crystallization,
Isothermal and non-isothermal crystallization during warming in aqueous solutions of 1,3-butanediol: comparison of calorimetry and cryomicroscopy 187

D.C. conductivity,
Effect of the electric field on the D.C. conductivity of bulk glassy $Te_{50}As_{50-x}S_x$ alloys 97

Decomposition,
Properties and thermal decomposition of the double salts of uranyl nitrate–ammonium nitrate 283
Synthesis and thermal decomposition of dithiocyanatobis(piperidine)cadmium(II) 277
Decomposition kinetics,
Thermal decomposition kinetics of 2-furaldehyde thiosemicarbazone complexes of cadmium(II) and mercury(II) 247
Dehydration,
The effect of water vapour pressure on the kinetics of the thermal dehydration of zinc formate dihydrate 255
Differential scanning calorimetry,
Analysis of a martensitic transformation by optical microscopy, acoustic emission detection, resistance measurements and differential scanning calorimetry 115
Dithiocyanatobis(piperidine)cadmium(II),
Synthesis and thermal decomposition of dithiocyanatobis(piperidine)cadmium(II) 277
Double salts,
Properties and thermal decomposition of the double salts of uranyl nitrate–ammonium nitrate 283
Dynamic mechanical analysis,
Localization and characterization of intracellular liquid–liquid phase separations in deeply frozen *Populus* using electron microscopy, dynamic mechanical analysis and differential scanning calorimetry 163

Edible fish oils,
Application of principal component analysis and thermoanalytical methods in evaluation of edible fish oils 327
Electric field,
Effect of the electric field on the D.C. conductivity of bulk glassy $Te_{50}As_{50-x}S_x$ alloys 97
Electrical studies,
Thermal and electrical studies of silicon phthalocyanine dichloride and tris(2,4-pentanedionato)silicon chloride hydrochloride 203
Electromotive force,
EMF investigation of Al–Si, Al–Fe–Si and Al–Ni–Si liquid alloys 39
Electron microscopy,
Localization and characterization of intracellular liquid–liquid phase separations in deeply frozen *Populus* using electron microscopy, dynamic mechanical analysis and differential scanning calorimetry 163
Equilibrium constant determination,
Critical review of the calorimetric method for equilibrium constant determination 353
Evaluation,
Application of principal component analysis and thermoanalytical methods in evaluation of edible fish oils 327
Excess enthalpies,
Excess enthalpies of some binary mixtures: a contribution to the study of the Cl–O specific interaction 317
Experimental variables,
The effect of experimental variables on the mechanism of the oxidation of pyrite. Part 2. Oxidation of particles of size 90–125 μm 135

Fracture interfaces,
Association between ice nuclei and fracture interfaces in sucrose: water glasses 103
Free energies of transfer,
Ionic solvation in water + co-solvent mixtures. Part 19. Free energies of transfer of single ions from water into mixtures of water with polyhydroxy compounds: an examination of the assumptions used in determining $\Delta G_t^{\ominus}$ (*i*) 57
Furaldehyde thiosemicarbazone complexes,
Thermal decomposition kinetics of 2-furaldehyde thiosemicarbazone complexes of cadmium(II) and Mercury(II) 247

Germanium,
A thermodynamic evaluation of the Ge–In, Ge–Pb, Ge–Sb, Ge–Tl and Ge–Zn systems 227
Glassy states,
Glassy states in dormant corn embryos 109
Gold,
A thermodynamic evaluation of the Au–Sb and Au–Ti systems 211

3-Hydroxy-2-methyl-1,4-naphthoquinone (HMNQ),
Thermodynamic stabilities of lanthanide complexes with 3-hydroxy-2-methyl-1,4-naphthoquinone (HMNQ) 377
2-Hydroxy-1-naphthaldehyde,
Studies of Ti(IV) and Zr(IV) chelates with N_2O_2 Schiff bases of 2-hydroxy-1-naphthaldehyde with aromatic diamines 309

Ice nuclei,
Association between ice nuclei and fracture interfaces in sucrose:water glasses 103
Indium,
A thermodynamic evaluation of the Ge–In, Ge–Pb, Ge–Sb, Ge–Tl and Ge–Zn systems 227
Intracellular liquid–liquid phase separations,
Localization and characterization of intracell-

ular liquid–liquid phase separations in deeply frozen *Populus* using electron microscopy, dynamic mechanical analysis and differential scanning calorimetry 163

Ionic solvation,
Ionic solvation in water + co-solvent mixtures. Part 19. Free energies of transfer of single ions from water into mixtures of water with polyhydroxy compounds: an examination of the assumptions used in determining $\Delta G_t^{\ominus}$ (*i*) 57

Iraqi crude oils,
Determination and study of thermal stabilities of surface-active compounds occurring naturally in Iraqi crude oils 241

Iron,
EMF investigation of Al–Si, Al–Fe–Si and Al–Ni–Si liquid alloys 39

Kinetics,
The effect of water vapour pressure on the kinetics of the thermal dehydration of zinc formate dihydrate 255

Lanthanide complexes,
Thermodynamic stabilities of lanthanide complexes with 3-hydroxy-2-methyl-1,4-naphthoquinone (HMNQ) 377

Lead,
A thermodynamic evaluation of the Ge–In, Ge–Pb, Ge–Sb, Ge–Tl and Ge–Zn systems 227

LiCl,
LiCl–$ZnCl_2$ phase diagram 87

Lignite,
Effect of pyrolysis on the proximate and ultimate analysis of lignite 1

Liquid alloys,
EMF investigation of Al–Si, Al–Fe–Si and Al–Ni–Si liquid alloys 39

Localization,
Localization and characterization of intracellular liquid–liquid phase separations in deeply frozen *Populus* using electron microscopy, dynamic mechanical analysis and differential scanning calorimetry 163

Martensitic transformation,
Analysis of a martensitic transformation by optical microscopy, acoustic emission detection, resistance measurements and differential scanning calorimetry 115

Mechanism,
The effect of experimental variables on the mechanism of the oxidation of pyrite. Part 2. Oxidation of particles of size 90–125 μm 135

Mercury(II),
Thermal decomposition kinetics of 2-furaldehyde thiosemicarbazone complexes of cadmium(II) and mercury(II) 247

Modification,
Correlation of quaternary liquid–liquid equilibrium data by means of a modification of the UNIQUAC model 263

Nickel,
EMF investigation of Al–Si, Al–Fe–Si and Al–Ni–Si liquid alloys 39

Nickel(II) diamine complexes,
Solid state thermal studies of nickel(II) diamine complexes 297

Optical microscopy,
Analysis of a martensitic transformation by optical microscopy, acoustic emission detection, resistance measurements and differential scanning calorimetry 115

Oxidation,
The effect of experimental variables on the mechanism of the oxidation of pyrite. Part 2. Oxidation of particles of size 90–125 μm 135
Thermodynamic and related studies for the oxidation of sulpha drugs by periodate 77

Periodate,
Thermodynamic and related studies for the oxidation of sulpha drugs by periodate 77

Pesticides,
Thermoanalytical investigations of some chloro-organic pesticides and related compounds 7

Phase diagram,
LiCl–$ZnCl_2$ phase diagram 87

Polyhydroxy compounds,
Ionic solvation in water + co-solvent mixtures. Part 19. Free energies of transfer of single ions from water into mixtures of water with polyhydroxy compounds: an examination of the assumptions used in determining $\Delta G_t^{\ominus}$ (*i*) 57

Polymer samples,
Thermal analysis of polymer samples by a round-robin method
IV. Analysis of factors affecting the reproducibility of transition temperature measurements 339

Populus,
Localization and characterization of intracellular liquid–liquid phase separations in deeply frozen *Populus* using electron microscopy, dynamic mechanical analysis and differential scanning calorimetry 163

Principal component analysis,
Application of principal component analysis and thermoanalytical methods in evaluation of edible fish oils 327
Proximate analysis,
Effect of pyrolysis on the proximate and ultimate analysis of lignite 1
Pyrite,
The effect of experimental variables on the mechanism of the oxidation of pyrite. Part 2. Oxidation of particles of size 90–125 μm 135
Pyrolysis,
Effect of pyrolysis on the proximate and ultimate analysis of lignite 1

Quaternary liquid–liquid equilibrium,
Correlation of quaternary liquid–liquid equilibrium data by means of a modification of the UNIQUAC model 263

Reproducibility,
Thermal analysis of polymer samples by a round-robin method
IV. Analysis of factors affecting the reproducibility of transition temperature measurements 339
Resistance,
Analysis of a martensitic transformation by optical microscopy, acoustic emission detection, resistance measurements and differential scanning calorimetry 115
Round-robin method,
Thermal analysis of polymer samples by a round-robin method
IV. Analysis of factors affecting the reproducibility of transition temperature measurements 339

Schiff bases,
Studies of Ti(IV) and Zr(IV) chelates with N_2O_2 Schiff bases of 2-hydroxy-1-naphthaldehyde with aromatic diamines 309
Silicon,
EMF investigation of Al–Si, Al–Fe–Si and Al–Ni–Si liquid alloys 39
Silicon phthalocyanine dichloride hydrochloride,
Thermal and electrical studies of silicon phthalocyanine dichloride and tris(2,4-pentanedionato)silicon chloride hydrochloride 203
Single ions,
Ionic solvation in water + co-solvent mixtures. Part 19. Free energies of transfer of single ions from water into mixtures of water with polyhydroxy compounds: an examination of the assumptions used in determining $\Delta G_t^{\ominus}$ (*i*) 57
Solid state,
Solid state thermal studies of nickel(II) diamine complexes 297
Stabilities,
Thermodynamic stabilities of lanthanide complexes with 3-hydroxy-2-methyl-1,4-naphthoquinone (HMNQ) 377
Stability,
Thermal behaviour and stability of amphotericin B 29
Sucrose:water glasses,
Association between ice nuclei and fracture interfaces in sucrose:water glasses 103
Sulpha drugs,
Thermodynamic and related studies for the oxidation of sulpha drugs by periodate 77
Surface-active compounds,
Determination and study of thermal stabilities of surface-active compounds occurring naturally in Iraqi crude oils 241
Synthesis,
Synthesis and thermal decomposition of dithiocyanatobis(piperidine)cadmium(II) 277

$Te_{50}As_{50-x}S_x$ alloys,
Effect of the electric field on the D.C. conductivity of bulk glassy $Te_{50}As_{50-x}S_x$ alloys 97
Thallium,
A thermodynamic evaluation of the Au–Sb and Au–Ti systems 211
A thermodynamic evaluation of the Ge–In, Ge–Pb, Ge–Sb, Ge–Tl and Ge–Zn systems 227
Thermal stabilities,
Determination and study of thermal stabilities of surface-active compounds occurring naturally in Iraqi crude oils 241
Thermodynamic evaluation,
A thermodynamic evaluation of the Ge–In, Ge–Pb, Ge–Sb, Ge–Tl and Ge–Zn systems 227
Titanium(IV) chelates,
Studies of Ti(IV) and Zr(IV) chelates with N_2O_2 Schiff bases of 2-hydroxy-1-naphthaldehyde with aromatic diamines 309
Transition temperature measurements,
Thermal analysis of polymer samples by a round-robin method
IV. Analysis of factors affecting the reproducibility of transition temperature measurements 339
Tris(2,4-pentanedionato)silicon chloride hydrochloride
Thermal and electrical studies of phthalocyanine dichloride and tris(2,4-pentanedionato)silicon chloride hydrochloride 203

Ultimate analysis,
Effect of pyrolysis on the proximate and ultimate analysis of lignite 1
UNIQUAC model,
Correlation of quaternary liquid–liquid equilibrium data by means of a modification of the UNIQUAC model 263
Uranyl nitrate,
Propeties and thermal decomposition of the double salts of uranyl nitrate–ammonium nitrate 283

Water,
Ionic solvation in water + co-solvent mixtures. Part 19. Free energies of transfer of single ions from water into mixtures of water with polyhydroxy compounds: an examination of the assumptions used in determining $\Delta G_t^{\ominus}(i)$ 57
Water vapour pressure,
The effect of water vapour pressure on the kinetics of the thermal dehydration of zinc formate dihydrate 255

Zinc formate dihydrate,
The effect of water vapour pressure on the kinetics of the thermal dehydration of zinc formate dihydrate 255
Zirconium(IV) chelates,
Studies of Ti(IV) and Zr(IV) chelates with N_2O_2 Schiff bases of 2-hydroxy-1-naphthaldehyde with aromatic diamines 309
ZnCl,
$LiCl–ZnCl_2$ phase diagram 87
